

The Vistage Key Executive Program provides you with a confidential forum to further develop your skills as a leader by getting advice, insights and fresh perspectives from a trusted network of your peers.

At each monthly meeting, facilitated by a Vistage Chair, you will connect with up to 16 fellow executives from a diverse range of businesses and backgrounds. Together, you'll engage in rich conversations about your business and personal challenges. The atmosphere of trust and accountability created in these groups provides an environment where you can recharge your thinking and learn and grow as a leader.

As member of a key group, you will:

- Develop greater self-awareness and build your leadership skills
- Access diverse points of view and innovative approaches from your peers
- Make better decisions based on the experiences and insights of your fellow members
- Bring real, measurable value to your organization

You'll also participate in small-group workshops led by Vistage expert speakers and gain access to the Vistage global community of more than 18,000 business leaders – all providing you with fresh ideas and new perspectives you can immediately put into practice.

“The members of my key group have helped me make better decisions by sharing their own experiences.”

Chris Kahila

Director of Operations
Central Region, Henkels & McCoy

“The key group is a perfect forum to have your assumptions challenged and find out what you don't know. Then you can take that back to your shop and develop it.”

David Cox

Regional Vice President
Henkels & McCoy
